

Aaton-Digital and Transvideo

Aaton-Digital

New from Aaton-Digital for their Cantar family of location audio mixer-recorders:

- The new Cantar X3 is an advanced mixing surface with a very large display and stylishly slim shape.
- Sennheiser AMBEO has been integrated with A-B conversion and technical monitoring for the sound mixer. AMBEO is immersive audio system for VR, AR and 3D.
- There's a new, dual battery charger with an interface to the Cantar X3 and Cantar X3.
- Cantar Mini's shoulder support system is capable of holding up to 8 RF receivers and their batteries.
